

Belgrade,  
29. september 2016.

## **Recommendation,**

*at the request of Budrovac, Vojislav*

In academic year 2015/16, Vojislav Budrovac attended ITAcademy's Web Design program, at the Design & Multimedia Department. Besides the theoretical aspects, his training at the Academy included the practical segment, which he also mastered.

During his training at ITAcademy, he exhibited enthusiasm and desire to acquire new knowledge and skills, as well as a great degree of dedication, along with readiness to implement the newly acquired knowledge in practice. His industriousness and resolution have demonstrated that he has quality, and that he is a dedicated team player, diligent, and always ready for new experiences.

It is evident that he has acquired a high level of knowledge and skills in Adobe Photoshop, Adobe Illustrator and Adobe Dreamweaver, to mention some of the software, as well as the HTML, CSS and JavaScript languages, which he uses in practice with ease. He is no stranger to responsive web design and other modern techniques either.

ITAcademy Manager  
Teacher at the Design & Multimedia Department  
**Vuk Ninić, dipl. ing.**  
Adobe Certified Instructor
